**API & 3rd Party:** Tailor to your business infrastructure.

**Multi-MID Inventory:** Manage multiple integrations easily.

**LINK:** home.swipesimple.com

# PCI Compliance

## The Importance of Compliance

- **Risk Management:** Essential at the bank level for securing risk management insurance.
- **Lower Processor Rates:** Rates remain lower when merchants maintain compliant, cooperative standing.

## The Reality of Hidden Fees

- **Negligent Processors:** Lax companies often fail to remind you of annual certification, yet charge up to $160/month.
- **Third-Party Vulnerability:** Banks don't track this for you; 3rd party services leave you highly vulnerable to non-compliance fees.
- **Statement Monitoring:** Check your Monthly Processing Statement regularly to avoid accepting these charges silently.

- PayBright's phone-in 10 minute PCI Compliance call! Simple!!
- Non Compliance Fee never above $19.95 month

# Application for Merchant Services

Merchant Services & Seller Application Portal
